

# Software ontwikkeling met MetaFactory

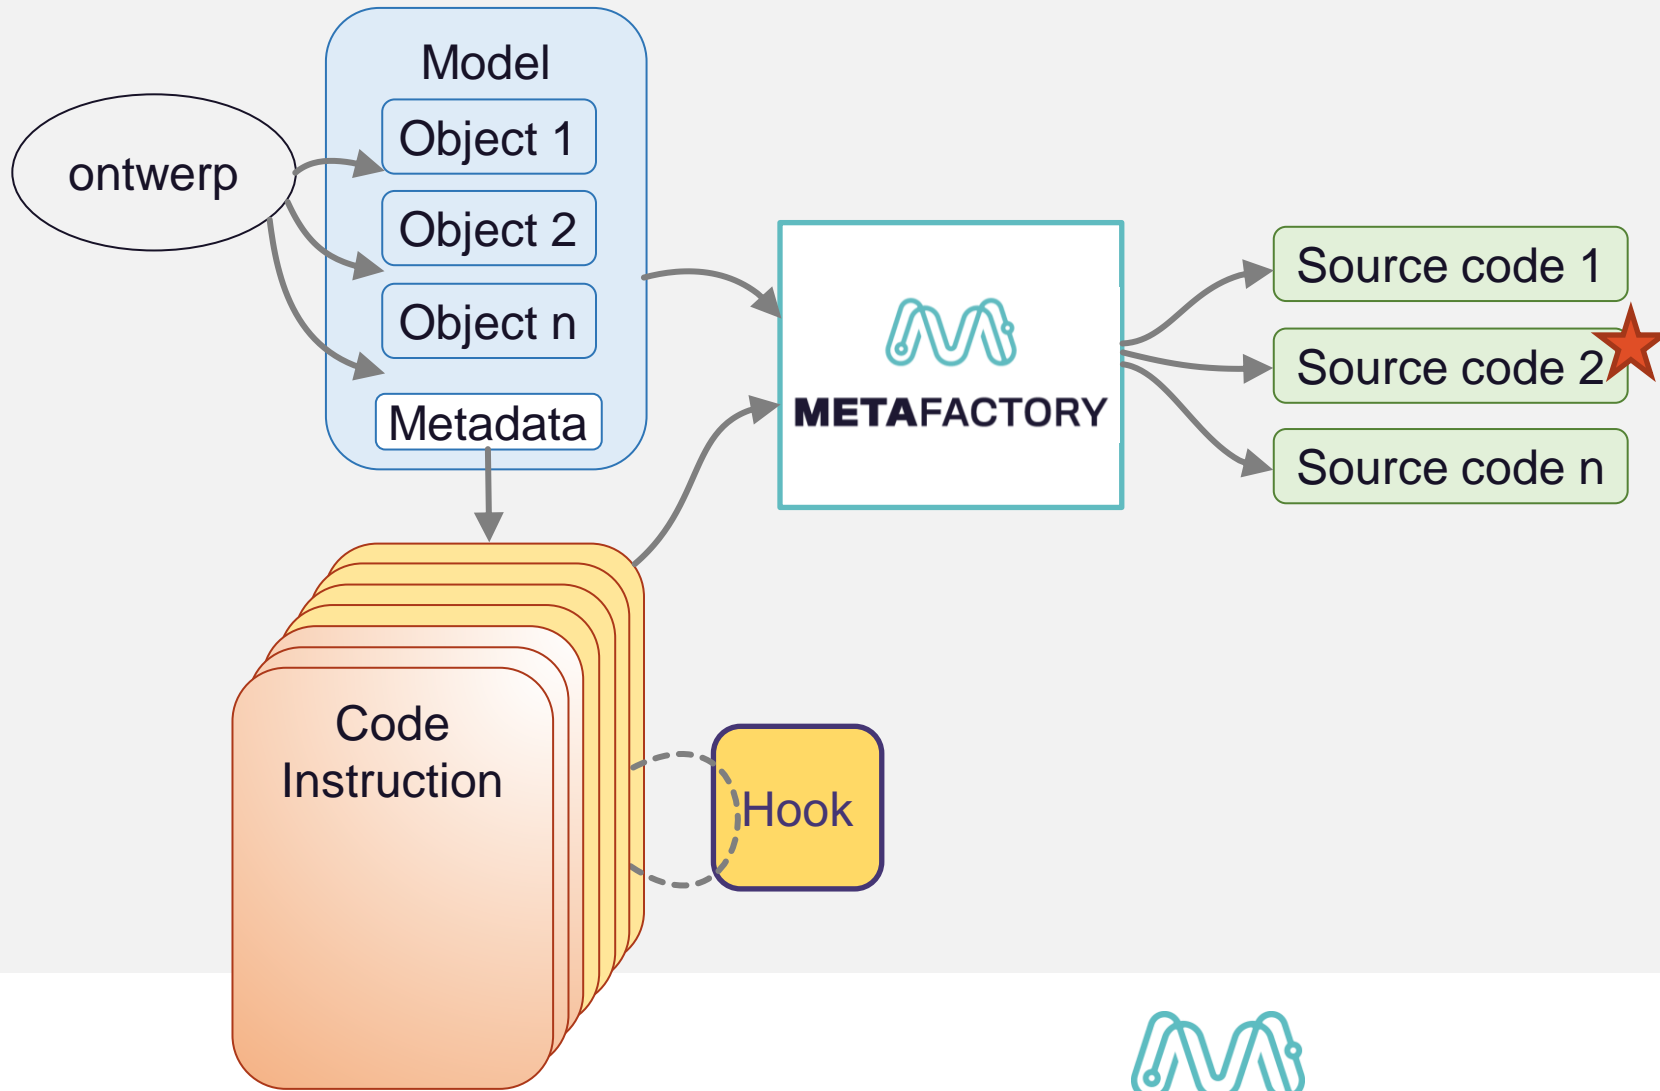

# Ontwikkeling conventioneel

# Ontwikkeling met MetaFactory

# Diversificeren

## Code Instruction

- XML -> statisch
- Metadata stuurt Code Instruction

## Snippet

- Freemarker / Velocity
- Complete programmer toolbox -> flexibel

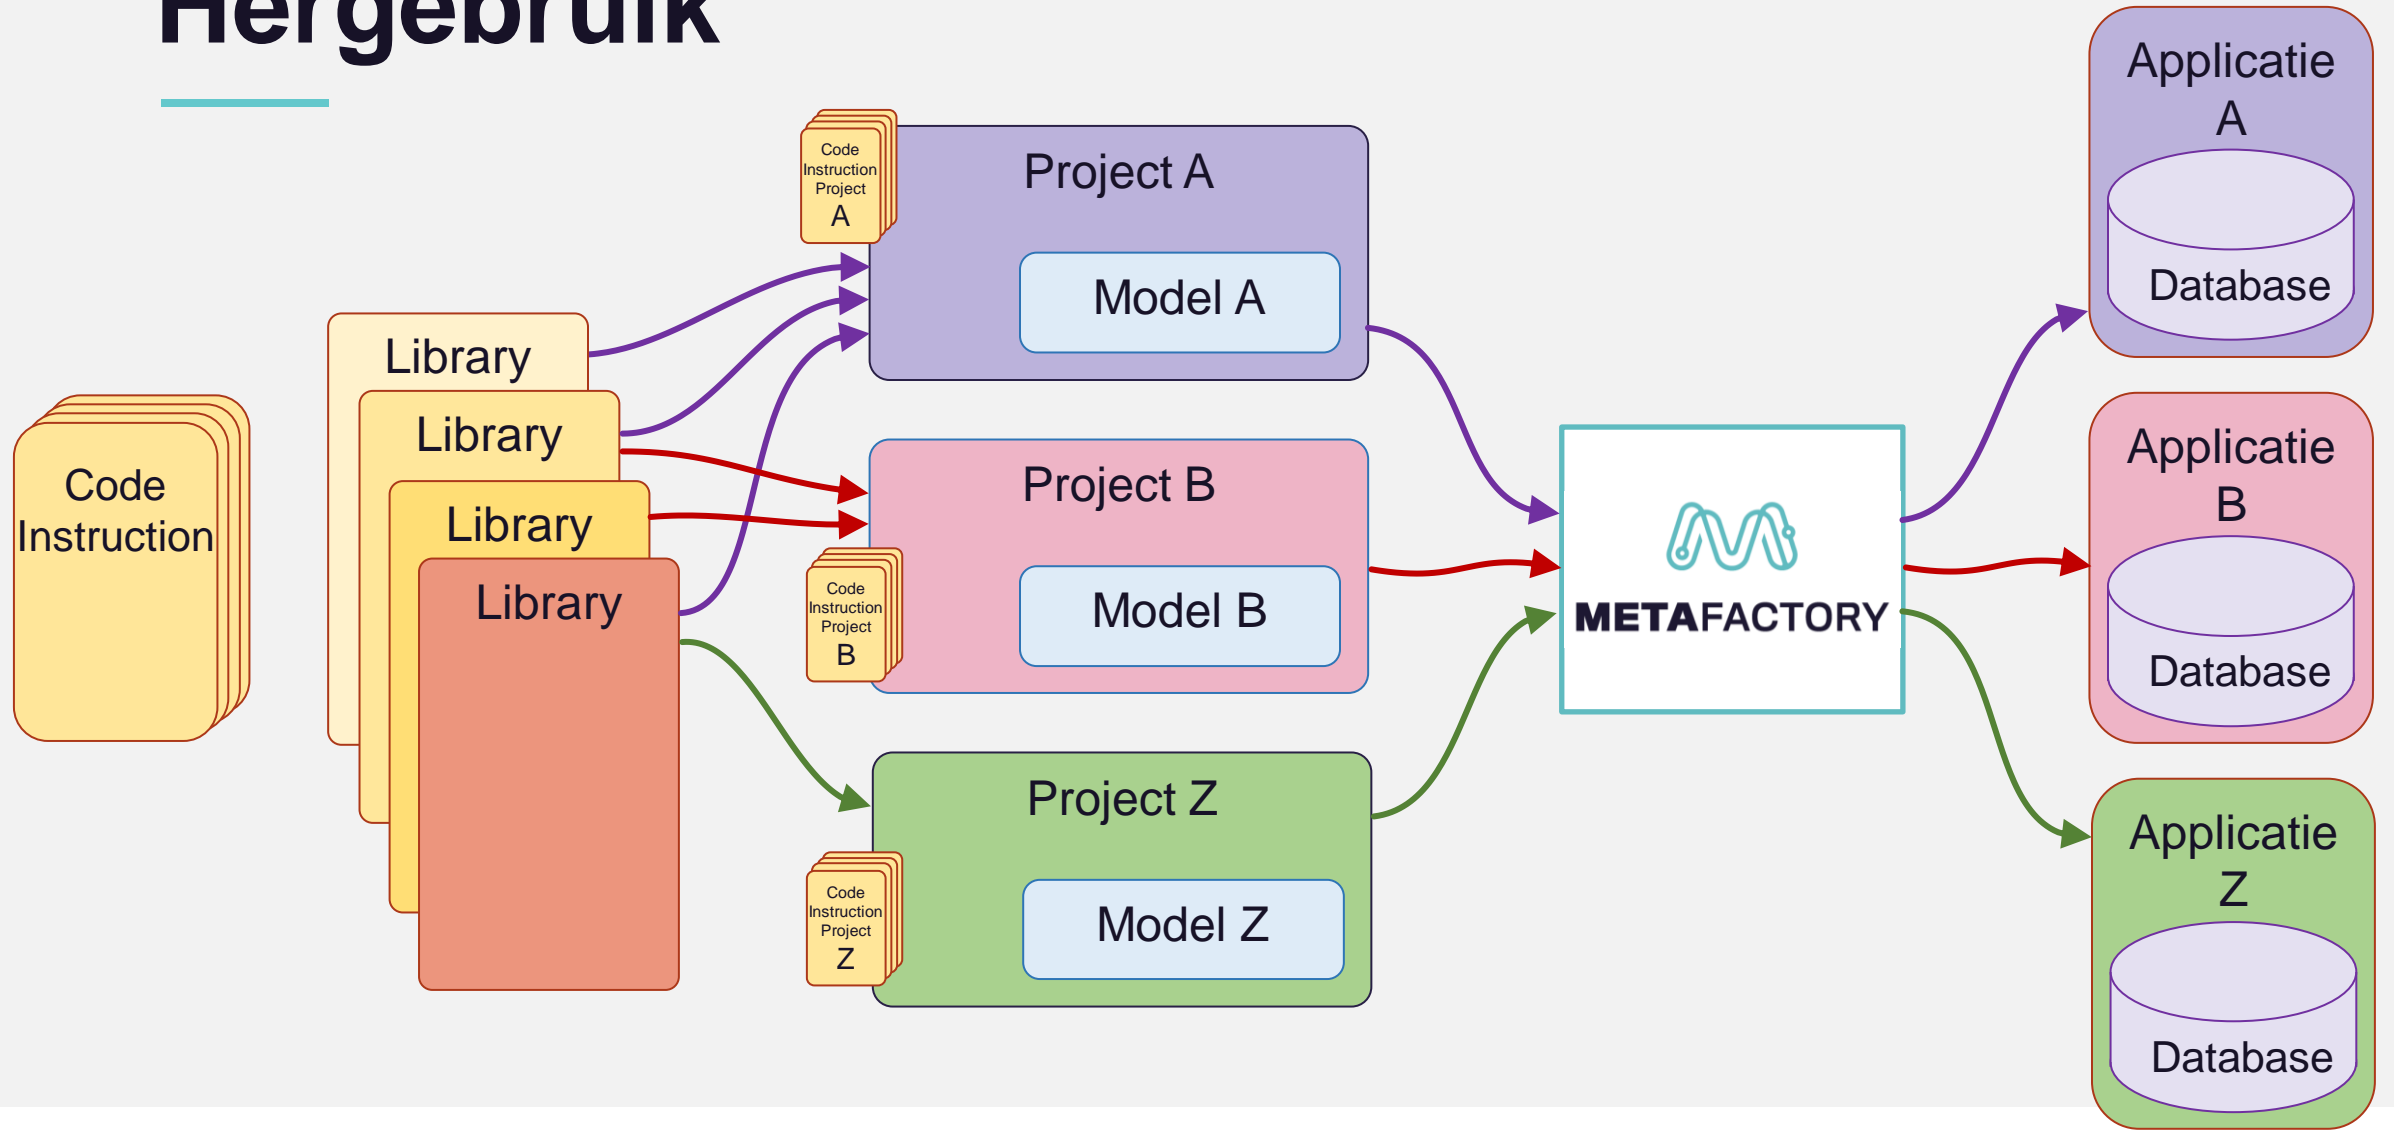

## Hook

- Project specifiek
- Overrules (deel van) snippet

## Feature

- Functionaliteit als gevolg van een cluster van Code Instructions

# Hergebruik

# Code Instruction bouwen
